Our Values

APPRECIATIVE

For us, fairness and respect are the basis of a successful cooperation. We work together with all stakeholders in a spirit of partnership and responsibility. We create room for creativity to unfold.

INNOVATIVE

Through innovative thinking and action, we meet new market requirements in a timely manner. We continuously improve our processes and help our customers to find suitable solutions. We attach importance to personal diversity and encourage the will to perform.

FORESIGHTED

The success of our customers, partners and employees also determines our success. We strive for a long-term relationship based on partnership. Through personal support we are able to support our customers from product development to application.

PASSIONATE

Our motivation is the enthusiasm for our daily work. We work with passion in the development of target-oriented solutions. Each individual is a specialist in his or her field and fully exploits his or her potential.

PRECISE

We operate an integrated and comprehensive quality management system, which is reflected in the quality of our services and products as well as in the cooperation with our partners and employees.

SUSTAINABLY

We take care of the environment and treat our resources with care. We use targeted measures to check compliance with regulations and ordinances. We promote environmental awareness through advice and training.

Metal die casting in perfection

Swiss quality, individual shapes, casting, machining, surface finishing and galvanizing: As your specialist for metal die-casting, MEGA turns ideas into reality. No matter which application you would like to implement in the die-casting process, the professionals produce die-cast parts individually according to customer requirements.

Fittings with style

First-class Swiss quality distinguishes the zinc and brass fittings of MEGA GOSSAU AG. They are developed and manufactured in finest manual work. The selection of models, materials and galvanic surfaces is unique. The wide range of products includes everything from building keys to door handles.

Customized production

From tool maintenance to foundry, machining, grinding and electroplating: MEGA GOSSAU AG is optimally equipped to implement your wishes.

Tool maintenance

Here your individually designed tools get the perfect shape.

Foundry

The first-class equipped foundry produces construction and decorative metal parts.

Machining

In the highly efficient machining department, die-cast parts are produced as single pieces or in large series.

Grinding / Surfaces

Fully automated robots and highly specialized employees provide the finishing touches.

Electroplating

Chrome, nickel, velour: die-cast and metal parts receive a high-quality finish.

Assembly

From assemblies to individual solutions – here experienced specialists assemble all parts together.

Passionate and sustainable

MEGA GOSSAU AG combines the highest quality, efficient processes and sustainable management - with success.

Total Quality is not just a buzzword for MEGA, it is part of the company DNA. This is reflected in the high quality of products and services, in the cooperation with partners and employees and in the ISO certificate 9001:2015.

MEGA GOSSAU AG places great emphasis on responsibility. That means among other things: Conservation of resources, respectful treatment of customers and employees, continuous improvement of processes through lean management as well as commitment to charitable organizations and projects in the region.
